

Families of the Cuban 5 visit Toronto

The Cuban Five are Cuba's more celebrated political prisoners. Each of these Cuban citizens has been in U.S. prisons since 1998.

The wives of these anti-terrorist political prisoners have been fighting for their release and building an international campaign around the world.

These brave women will visit Toronto to tell the story of the fight for these five political prisoners.

United Steelworkers through Workers Uniting has joined the campaign to bring visiting rights to the families of the Cuban Five .
