

# January 20, 2010: 4th Annual Developmental Services Appreciation Day

**Building Community – *We Make it Happen!***

**Helping people with disabilities to actively participate and contribute in their communities**

Artist Gilles Arsenault is a long-time labour and greening activist. In 1997, a near fatal accident resulted in a serious brain injury. Today Giles lives in a community living residence in Toronto. He paints at the Creative Spirit Art Centre, an art gallery and studio advancing the creative power in artists with disabilities.

**Join the province-wide celebrations to recognize the work that we do. We celebrate the commitment and professionalism of developmental service workers who provide daily, compassionate care in agencies across this province.**
